

Series: Glowing Fabrics
Product name: GloBe M
Product code: 121-050150
Design: Tobjörn Lundell

Revision: 061017

Product description

Clear acrylic sphere dressed in light radiating textile. GloBe can be powered by a range of lightsources depending on level- and colour of light desired.

Formats

Ø 500 mm. Standard length (L) of extra fibre and globe is ca 1500 mm.

Armature

When produced, GloCurtain's textile element is woven onto the sphere hence it is not possible to take the two apart at a later stage without damaging the weave.

Mounting

Illuminator is mounted in false ceiling or bolted to ceiling.

Related products

Illuminators:
 GloCurtain can be equipped with illuminators ranging from a cost-efficient 50W halogen fanless projector for home environments to the 150W metal halide projector for professional use with DMX, dimming and RGB colour change. See separate sheets.

For quotation please state:

- Desired length (L). The lighting armature is delivered with an extra 400 mm for connection.
